OUR LEGACY

Jordan Airmotive, known as JALCO, has a proud history that began in 1985 as the engine shop for the flag carrier, Royal Jordanian.

In 2000, as part of the Jordanian government's privatization of the Royal Jordanian Airline, the former engine shop transitioned into Jordan Airmotive, establishing itself as a recognized name in the MRO aviation sector.

In 2006, the company entered a new chapter through the government's privatization process, transitioning into private ownership under its current chairman and establishing itself as a recognized brand in the aviation industry.

Today, Jordan Airmotive is a leading MRO provider with global reach, renowned for its expertise, reliability, and commitment to excellence.

CRAFTY, SKILLED &
LICENSED HANDS

Armed with the most recent knowledge, our team puts together highly skilled and licensed technicians capable of completing the most complex maintenance tasks efficiently while meeting crucial deadlines.

AFTER SALES
SERVICES

Even beyond our doors, we always stand for our work with the after-sale services that include on site support and engine troubleshooting.

AVAILABLE AND
REACHABLE, ALL THE TIME

Through multiple agreements with major vendors, we ensure the availability and timely-delivery of the required spare parts for any maintenance operation we carry on.

We meet your various requirements through various service contract-terms, including Time & Material, Not-to-Exceed Price, Firm-Fixed Price and others.

We provide you with the support you need through our around-the-clock customer service and support.

TAX EXEMPT: Saving you the extra cost paid for taxes since we are located in a Tax-Free zone.

EXPERIENCE VS COST: Although neck-and-neck in terms of experience, our man-power costs less compared to the surrounding MRO facilities in the region.

OFF-SITE SUPPORT: Saving you the shipping and shop-visit costs.

CUSTOMIZED WORK SCOPES: Depending on highly-customized work scopes to meet various maintenance requirements to save you time.

PMA & DER SOLUTIONS: Encouraging the repair VS replacement policy, keeping the replacement as the last choice so you don't have to incur its costs.
